I. OFFICE OF POLLUTION PREVENTION AND PERMIT COORDINATION

The Office of Pollution Prevention and Permit Coordination (www.state.nj.us/dep/opppc/) offers project applicants seeking multimedia permits the opportunity to manage their permitting issues through a single point of entry into the Department. A Department project manager will be assigned to projects to conduct a pre-application meeting, clarify permit requirements and issues, coordinate activities among the various Department permitting programs and maintain communication with both the applicant and the permitting programs until the conclusion of the permitting process. Department project management is recommended for new projects requiring multiple permits or major modifications of existing facilities utilizing new or advanced technologies or those which are highly complex and/or highly controversial.

A.	Permit Coordination (609) 292-3600	<u>C</u>
	Do you wish to have a Department project manager assigned to your permitting activities?	
B.	Pollution Prevention (609) 777-0518	
	Did you complete at least one Form R for a chemical substance regulated under the federal Emergency Planning and Community Right to Know Act (SARA Title III, Section 313) for the last calendar year?	
	If "yes" you are required to prepare a Pollution Prevention Plan for each federal Right to Know substance used or manufactured facility-wide in excess of 10,000 pounds.	
C.	Silver & Gold Track for Environmental Performance (609) 777-0518	
	Is your facility currently participating in the Silver & Gold Track for Environmental Performance with a signed covenant?	
D.	Small Business Environmental Assistance Program 877-753-1151 or (609) 292-3600	0
	Approximately 95 percent of all businesses are eligible for assistance. Size standards v widely depending upon the industry; however, as a general rule, your business is wit SBA size limits if it is in manufacturing or wholesaling with fewer than 100 employees.	_
	Is your facility considered a small business?	

II. <u>WATERSHED MANAGEMENT</u>

(609) 984-0058

A. <u>Program Description</u>

The Division of Watershed Management (DWM) (http://www.state.nj.us/dep/watershedmgt/index.html) administers the Statewide Water Quality Management Planning (WQMP) Program. The WQMP Act states that "all projects and activities affecting water quality in any planning area shall be

developed and conducted in a manner consistent with the adopted areawide plan." The law further specifies that "the commissioner shall not grant any permit which is in conflict with an adopted areawide plan." (N.J.S.A.58:11A). Areawide water quality management (WQM) plans provide information and requirements for water resource protection and wastewater management. These plans will be expanded in the future to include adopted watershed management area plans developed by the Department in partnership with Public Advisory Committees. Under the existing WQMP rules, the Department shall not issue the permit if the Department finds the project or activity to be inconsistent with a WQM plan or the rules (N.J.A.C. 7:15-3.1(a)). The Department conducts a consistency determination (CD) review to ensure that proposed projects or activities do not conflict with the applicable areawide WQM plans.

After a CD review is completed, the Department will find the project to be "consistent", "not addressed", or "inconsistent". A project is "consistent" if it complies with the WQMP rules and the applicable WQM plans. If the planning rules and the WQM plans do not contain provisions regarding or precluding a project, then the project is "not addressed". For projects that are determined to be "consistent" or "not addressed", the Department will either issue a written CD to the applicant or issue the permit. A finding of "inconsistent" means that the project conflicts with the rules and/or the areawide WQM plans. In order to resolve a finding of "inconsistent", an applicant may either revise the project to conform with the WQM plans and rules, apply for a WQM amendment, or appeal the Department's finding of inconsistent. Since CD reviews are considered part of the permit review process, an appeal of a Department CD must be pursued as an appeal of the permit decision, in accordance with the statutes and rules that govern the particular permit.

The WQMP rules were recently revised to increase the planning and environmental assessment requirements for new or expanded discharges to groundwater of more than 2,000 gallons per day. This includes residential development of 6 or more units on individual subsurface sewage disposal systems. Please refer to N.J.A.C. 7:15-8 for more information on these new requirements and N.J.A.C. 7:15-8.2(c) for exemption criteria.

B. General Questions Relating to Water Quality and Watershed Management Planning

The Division of Watershed Management is interested in evaluating projects for consistency with applicable areawide WQM plans and WQMP rules and its potential impacts on watershed management planning. The following questions will assist the Department in determining the applicability of these programs to your proposed project.

		YES	NO
1.	Will your project or activity generate wastewater?		
2.	Name of treatment facility where wastewater generated by your proposal	is expected to l	be treated:
	Name:		
3. 4.	Is this facility existing or proposed? ExistingProposed _ Type of wastewater disposal: Ground water Surface water		

тур	e of proposed water supply source: Ground water Surface water
Nan	ne of Associated Purveyor:
Nan	ne of source waterbody or aquifer:
Loc	ation of diversion (Municipality and street, if applicable):

A Map of New Jersey's Watershed Bureaus and Management Areas is included as Attachment A. For additional information please contact the Bureau in which your proposed project is located:

Northwest Region	633-3812
Northeast Region	633-1179
Lower Delaware Region	633-1441
Raritan Region	633-7020
Atlantic Coastal Region	984-6888

III. <u>LAND USE MANAGEMENT</u>

Land Use Management administers the permit programs associated with the Waterfront Development Act, the Wetland Act of 1970, the Coastal Area Facility Review Act (CAFRA), the Flood Hazard Area Control Act (Stream Encroachment), the Freshwater Wetlands Protection Act, and the Riparian Lands Management Program.

A. Land Use Regulation Program (http://www.state.nj.us/dep/landuse/index.html)

For some projects requiring permits issued by the Land Use Regulation Program, a determination is required to assure that the projects approved or authorized do not conflict with the Statewide and Area-wide Water Quality Management Plans and regulations.

1. <u>Coastal Area Facility Review Act (CAFRA) Permit</u> – A CAFRA Permit is needed for certain types of residential, commercial, industrial, and public developments within the coastal area described in the Act. Municipalities within the coastal area (CAFRA) are listed in Attachment B.

	YES	NO
Is your development geographically located in the CAFRA area? If "Yes," please answer the following questions, consulting CAFRA, N.J.S.A. 13:19-1 et seq., and the Coastal Permit Program Rules, N.J.A.C. 7:7-1 et seq., for definitions of activities for which a permit is required, and for exemptions.		

YES NO

NIO

TITO

a.	CAFRA regulates all development on a beach or dune.		
	Is your project located on a beach or dune?		
b.	CAFRA regulates the first house or other development within 150 feet of the mean high waterline of a tidal water, beach or dune. However, if there is an existing "intervening development" (for example, a house) between a proposed project and the water, beach or dune, then CAFRA applies only to: residential developments with three or more units, not single-family or duplex homes; commercial development with five or more parking spaces, and to all public and industrial development.		
	Is your development described in this paragraph?		
c.	Beyond the 150-foot area but still within the CAFRA zone, residential developments of 25 or more units, commercial developments with 50 or more parking spaces or equivalent paved area and all industrial and public developments are subject to permit review.		
	Is your development described in this paragraph?		
d.	In urban coastal municipalities known as "qualifying municipalities," the development threshold is slightly higher in areas greater than 500 feet from the mean high waterline of tidal waters, beach or a dune. In these areas, a permit is required for residential developments of 75 or more units and commercial developments with 150 or more parking spaces or equivalent paved area. (The list of "qualifying municipalities" changes annually, based on tax and population statistics. Please call (609) 292-1237 for the current list.)		
	Is your development described in this paragraph?		
e.	The addition of one or more parking spaces, dwelling units or equivalent to a development constructed after September 19, 1973, which results in a total exceeding the regulatory threshold, is regulated.		
	Does your proposed project involve the expansion/addition of parking spaces, dwelling units or equivalent to an existing development which was constructed after September 19, 1973?		
		YES	NO

construction greater than 1,200 linear feet?
g. If the project is located in the Pinelands National Reserve, the Pinelands Commission will comment on the project's consistency with the intents, policies and objectives of Section 502 of the National Parks and Recreation Act of 1978 and the Pinelands Protection Act of 1979 in accordance with N.J.A.C. 7:7 E-3.44. These comments will be taken into account by the Department in its review of the CAFRA permit application.
<u>Waterfront Development Permit</u> – A Waterfront Development Permit is needed for developments proposed within any tidal waterway of the State and lands lying thereunder up to and including the mean high waterline. Examples of projects that need a waterfront development permit include docks, wharfs, piers, bulkheads, bridges, pipelines, cables, pilings, filling, dredging or removing of sand or other materials.
For development outside the CAFRA area, the Waterfront Development Law regulates not only activities in tidal waters, but also the area adjacent to the water extending from the mean high waterline to the first paved public road, railroad, or surveyable property line. At a minimum, the zone extends at least a 100 feet, but no more than 500 feet, inland from the tidal water body. Within this zone the Department must review construction, reconstruction, alteration, expansion, or enlargement of structures, excavation, and filling. However, this part of the law does not apply within the Hackensack Meadowlands Development District.
Does your proposed project involve waterfront development?
Note: Developments subject to the Waterfront Development Law may also require a tidelands instrument.
<u>Coastal Wetlands Permit</u> – A Coastal Wetlands Permit is needed to excavate dredge, fill or erect structures on coastal wetlands as delineated in maps promulgated by the Department pursuant to the Wetlands Act of 1970.
Does your proposed project involve any of the activities described on coastal wetlands?

2.

3.

4. <u>Freshwater Wetlands</u> – The Freshwater Wetlands Protection Act seeks to protect freshwater wetlands. State open waters (waters of the United States which are not wetlands) and upland areas up to 150 feet from wetlands serve as buffers from random, unnecessary or undesirable alteration or disturbance.

- a. Letter of Interpretation (LOI) There are four types of LOIs:
 - 1. verifying the limit of freshwater wetlands and their resource value classification on any size property;
 - 2. delineating freshwater limits for properties which are smaller than one acre;
 - 3. identifying the presence or absence of a wetlands footprint on a one acre portion of a larger tract; and
 - 4. acknowledging the presence or absence of wetlands on any size tract
- b. Statewide General Permit A Statewide General Permit allows limited types of activities to be performed in freshwater wetlands and State Open Waters, provided specific permit conditions are met. General Permit activities include maintenance of existing structures, utility lines, minor road crossings, stormwater outfalls, and filling of isolated wetlands. In general, no more than one acre of freshwater wetlands or State Open Waters can be disturbed. Authorization is required from the Land Use Regulation Program before proceeding with an activity permitted under a Statewide General Permit.
- c. Freshwater Wetlands Individual Permit A Freshwater Wetlands Individual Permit is needed when activities proposed do not fall within any General Permit category or the activities encompass more than one acre of fill.
- d. Transition Area Waivers A transition area waiver or buffer is required adjacent to freshwater wetlands of exceptional or intermediate resource value (N.J.A.C. 7:7A-6.1). There are three types of transition area waivers:
 - 1. reduction in width;
 - 2. modification in shape; and
 - 3. partial elimination (N.J.A.C. 7:7A-7.1(c))

A transition area waiver is required for many activities conducted in transition areas. Authorization is required from the Land Use Regulation Program before proceeding with an activity permitted under a Statewide General Permit.

		YES	NO
	Will you have project activities within 150 feet of a wetland?		
5.	Stream Encroachment Permit		
	Does your project/facility include the construction, installation or alteration of any structure or permanent fill along, in, or across the stream channel or 100-year flood plain of any stream (N.J.A.C. 7:13)?		
	Will there be any alteration of the stream itself?		

6. <u>Water Quality Certificate</u> – All projects requiring a Federal permit for the discharge of dredged or fill material into State waters and/or their adjacent wetlands also require the State Water Quality Certification which ensures consistency with State water quality standards.

Does your project require a Federal permit for the discharge of dredged or fill material into State waters and/or their adjacent wetlands?

7. <u>Tidelands Instruments</u> – Tidelands, also known as riparian lands, are all those lands now, or formerly, flowed by the mean high tide of a natural waterway. These lands are State owned or State claimed to be owned. Activities on State owned tidelands require a tidelands grant, lease or license. Activities at or below mean high water may require a waterfront development permit.

Does your project require the use of tidelands? _____

8. Does your project involve dredging, port or marina development or redevelopment of a former marina or port site? (The site may be either the CAFRA or Waterfront Development Permits are issued by the Office of Dredging and Sediment Technology. See page ## under Site Remediation.)

For the following permits: CAFRA, Freshwater Wetlands, Coastal Wetlands, Waterfront Development Permits, Water Quality Certificates; or Stream Encroachment Permits please refer to the listing below for the county in which the site of concern is located. (All numbers are 609 area code.)

	Permits	Stream Encroachment

B. <u>Pinelands Commission</u> (609) 894-9342

The **Pinelands Commission** (http://www.state.nj.us/pinelands), an independent State agency, is responsible for implementing the land use management plan for the Pinelands region which covers portions of seven southern New Jersey counties: Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester and Ocean.

		YES	<u>NO</u>
1.	Is your project located in one of the municipalities listed in Attachment C and within the Pinelands area? (See map title "Pinelands Area Jurisdiction Boundaries") If "Yes," please answer Question 2.		
2.	Have you completed an application for development with the Pinelands Commission or have you received written confirmation that no application is necessary? If "Yes," please attach the documentation received from the Pinelands Commission regarding the proposed development.		
3.	In the Pinelands Area, a Freshwater Wetlands Permit is needed only for the discharge of dredge or fill material in wetlands.		
	Does your project involve dredging or filling?		
	If "Yes," please note that the Pinelands Commission will issue the Freshwater Wetlands Permit if the following conditions are met:		
	The activity requires an application to the Pinelands Commission under the Pinelands Comprehensive Management Plan (N.J.A.C. 7:50-1.1 et seq.) and the activity falls within a General Permit category under the		

The Pinelands National Reserve was designated by the State under the Pinelands Protection Act of 1979 (N.J.S.A. 13:18A-11). Development in the Pinelands Area is subject to the requirements of the Pinelands Comprehensive Management Plan (N.J.A.C. 7:50-1.1 et seq.) which is administerted by the New Jersey Pinelands Commission. The Pinelands Area is composed of the Preservation Area and the Protection Area which were also designated under the Pinelands Protection Act. The Preservation Area is the heart of the Pinelands Area and is especially vulnerable to environmental degradation. As a result, the standards for development are more stringent in the Preservation Area than in the Protection Area.

Freshwater Wetland Protection Act Rules (N.J.A.C. 7:7A-

1.1 et seq.).

(See Attachment C for Maps of Pinelands and the list of municipalities within the area.)

C. Delaware and Raritan Canal Commission (6)

(609) 397-2000

The **Delaware and Raritan Canal Commission** (http://www.dandrcanal.com/drcc/), within the Department, reviews development applications proposing projects within its jurisdictional zone which includes the Canal Park and the lands adjoining the canal banks and encompassing all municipalities within which development could have an impact on the Canal Park.

Is your project/facility located in one of the municipalities listed in Attachment D, within the area indicated on the attached map titled "D&R Canal Review Area?"

D. <u>Hackensack Meadowlands Development Commission(HMDC)</u> (201) 460-1700

The **HMDC** (http://www.hmdc.state.nj.us) is responsible for regulating activities within the 19,730-acre district. The Commission has a professional staff which carries out its adopted master plan and regulations. The following municipalities are within the HMDC jurisdictional area:

Bergen County:

Hudson County:

Carlstadt Borough
East Rutherford Borough
Little Ferry Borough
Lyndhurst Township
Moonachie Borough
North Arlington Borough
Ridgefield Borough
Rutherford Borough
South Hackensack Township
Teterboro Borough

Jersey City Town of Kearny North Bergen Township Town of Secaucus

A zoning map of the HMDC jurisdiction is included as Attachment E.

- 1. Is your project located in one of the municipalities within the HMDC jurisdictional area?
- 2. Have you completed an application for development with the HMDC or have you received written confirmation that no application is necessary? If "Yes," please attach the documentation received from the HMDC regarding the proposed development.

E. Green Acres Program (GAP) (609) 984-0631

When a local unit accepts **GAP** (http://www.state.nj.us/dep/greenacres/) funding for the acquisition or development of parkland, the funded parcels and facilities and all other lands

held by the local unit for conservation and recreation purposes come under GAP jurisdiction. Any disposal or change in use of these lands for other than conservation or recreation purposes is a diversion. Diversions require prior approval through GAP by the Commissioner of the Department and the State House Commission.

The GAP also acquires state owned lands administered by the Division of Fish, Game and Wildlife and the Division of Parks and Forestry.

	YES	NO
1. Is your project located on lands which are currently or formerly owned by a municipality, county, or the state, or does the project directly impact such lands? If "Yes," for municipal or county lands please contact the local unit and answer Question 2. For state owned impacted lands, contact the GAP as described below.		

To answer this question please review the following list of items to check for the possibility of a GAP encumbrance.

- a. Green Acres Contract or Agreement;
- b. Recreation and Open Space Inventory;
- c. Deed, Easements, Restrictions as to Land Use;
- d. Current and Past Land Use;
- e. Local Unit Actions such as Resolutions, Ordinances, Dedications, Expenditures, Permits or Approvals etc., for Conservation or Recreation Uses; and
- f. Official Map, Master Plan Information

Has the local unit ever received GAP funds?

		_
3.	If "Yes", did the local unit hold the project lands for	
	conservation or recreation purposes at the time of GAP funding?	

If you would like GAP to review its files, please send a letter identifying the block and lot, intended use, and a general and specific site locator map using the USGS topographic quadrangle, tax map, and site plans to:

Green Acres Program
Bureau of Legal Services and Stewardship
PO Box 412
Trenton, New Jersey 08625-0412

IV. AIR QUALITY PERMIT PROGRAM

The **Air Quality Permit Program** (http://www.state.nj.us/dep/aqpp/) ensures the citizens of New Jersey an environment which is as free from unacceptable levels of air pollution as possible. It evaluates new sources, reviews air quality modeling and risk assessments, evaluates

applications for all new or modified equipment which emits air contaminants, oversees the measurement of contaminant emissions and issues permits for equipment which is subject to federal air pollution control rules.

1040	orar an	ponduoi contro ruicsi	<u>YES</u>	NO
A.	New	<u>Source Review</u> (609) 292-6716		
		the project/facility use any of the new or modified equipment for control apparatus listed below?		
	1.	Commercial fuel burning equipment with a maximum rated heat input of 1,000,000 BTU per hour or greater to the burning chamber;		
	2.	Equipment which has the potential to emit any of the toxic substances listed below at a rate greater than 0.1 pound per hour (45.4 grams per hour);		

"Group 1 TXS," means an air contaminant that is found on the list of Group I TXS at N.J.A.C. 7:27-17.3, which is incorporated by reference herein:

Name	CAS Number
Benzene (Benzol)	71-43-2
Carbon tetrachloride (Tetrachloromethane)	56-23-5
Chloroform (Trichloromethane)	67-66-3
Dioxane (1,4-Diethylene dioxide)	123-91-1
Ethylenimine (Aziridine)	151-56-4
Ethylene dibromide (1,2-Dibromoethane)	106-93-4
Ethylene dichloride (1,2-Dichloroethane)	107-06-2
1,1,2,2-Tetrachloroethane (sym Tetrachloroethane)	79-34-5
Tetrachloroethylene (Perchloroethylene)	127-18-4
1,1,2-Trichloroethane (Vinyl trichloride)	79-00-5
Trichloroethylene (Trichlorethene)	79-01-6

"Group 2 TXS," means an air contaminant that is found on the list of Group 2 TXS at N.J.A.C. 7:27-17.3, which is incorporated by reference herein, together with all amendments and supplements. As of June 12, 1998, the following is the complete list of Group 2 TXS:

Name	CAS Number
Methylene chloride (Dichloromethane)	75-09-2
1,1,1-Trichloroethane (Methyl chloroform)	71-55-6

4. A surface cleaner which uses a cleaning solution containing five percent or more VOCs, HAPs, or a VOC and HAP combined and which is:

		<b>YES</b>	NO
	a. An unheated open top surface cleaner with a top opening of greater than six square feet (0.56 square meters) or a capacity greater than 100 gallons;		
	b. A heated open top surface cleaner;		
	<ul><li>c. A conveyorized surface cleaner; or</li><li>d. A stationary spray cleaning or surface stripping operation</li></ul>		
	using one half gallon or more of cleaning solution in one hour;		
5.	Equipment used in a graphic arts operation which includes newspaper, lithographic, gravure, flexographic, letterpress, and screen printing, in which the quantity of ink, fountain solution, or cleaning material used by a source in any one hour is equal to or greater than one half gallon;		
6.	Any tank or vessel which has the capacity of more than 100 gallons and which is used:		
	a. In etching, pickling, or planting; or		
	b. In chromium electroplating or chromium anodizing;		
7.	A transfer operation involving gasoline or other VOCs regulated under N.J.A.C. 7:27-16.3 or 16.4, or a marine tank vessel loading or ballasting operation regulated under N.J.A.C. 7:27-16.5, if the operation is required to have a control device other than bottom fill or submerged fill;		
8.	Stationary storage tanks which have the capacity in excess of 10,000 gallons and which are used for the storage of liquids, except water, or distillates of air;		
9.	Stationary storage tanks which have a capacity in excess of 2,000 gallons and which are used for the storage of a VOC or mixture of VOCs having a vapor pressure or sum of partial pressures of 0.02 pound per square inch absolute (1.0 millimeters of mercury) or greater at standard conditions;		
10.	Tanks, reservoirs, containers and bins which have a capacity in excess of 2,00 cubic feet and which are used for the storage of solid particles;		
11.	Stationary material handling equipment using pneumatic, bucket or belt conveying systems from which emissions occur;		
12.	Equipment used in a surface coating operation including, but not limited to, spray and dip painting, roller coating, and electrostatic depositing, in which the quantity of coating or cleaning material used by a source in any one hour is equal to or greater than one half gallon of liquid;		

		<u>YES</u>	NO
13.	Any equipment used for the burning of noncommercial fuel, crude oil or process by-products in any form;		
14.	An incinerator, except an incinerator which serves a one or two family dwelling; or which serves a multi-occupied dwelling containing six or fewer family units, one of which is occupied by the owner of the dwelling;		
15.	Equipment which is used for treating groundwater, industrial wastewater, or municipal wastewater with a solids content of less than two percent by weight as it enters the equipment (typical operations performed by this type of equipment include, but are not limited to, air stripping, aeration, digestion, thickening, flocculating, surface impounding, and dewatering), if the equipment does either of the following:		
	a. Treats or handles influent which has one of the following:		
	<ol> <li>A total concentration of VOCs and Group 2 TXS in the influent of 3,500 parts per billion by weight (ppbw) or more; or</li> <li>A total Group 1 TXS concentration in the influent of 100</li> </ol>		
	ppbw or more; or		
	b. Discharges more than 50 pounds per hour of sludge. For the purposes of this paragraph, wastewater with a solids content of two percent by weight or greater is considered sludge;		
16.	Equipment used for treating waste soils or sludges, including municipal solid wastes, industrial solid wastes or recycled materials, if the influent to the equipment has a solids content of two percent by weight or greater. Typical operations performed by this type of equipment include, but are not limited to, soil cleaning, composting, pelletizing, grit classifying, drying, and transfer station operations. However, this shall not include an area used as a temporary storage area, such as a concrete pad or a roll-off container, provided that the area is not also used for treatment;		
17.	Equipment used for the purpose of venting a closed or operating dump, sanitary landfill, hazardous waste landfill, or other solid waste facility, directly or indirectly in to the outdoor atmosphere including, but not limited to, any transfer station, recycling facility, or municipal solid waste composting facility;		
18.	Any control apparatus serving equipment for which a permit and certificate is required pursuant to this section; and		

		<u>YES</u>	NO
19.	Equipment in which the combined weight of all raw materials used, excluding air and water, exceeds 50 pounds in any one hour, except for equipment excluded from permit requirements under 3 through 18 above.		
<u>Ope</u>	<u>rating Permits</u> (609) 633-8248		
1.	Does the facility emit or have the potential to emit a Hazardous Air Pollutant (HAP) in an amount which equals or exceeds the amounts listed below? The calculation of potential to emit shall include fugitive emissions, as defined by N.J.A.C. 7:27-22.1		

Threshold

An Contammant	Theshold
Carbon Monoxide	100 tons per year
PM-10	100 tons per year
TSP	100 tons per year
Sulfur Dioxide	100 tons per year
Oxides of Nitrogen	25 tons per year
VOC	25 tons per year
Lead	10 tons per years
Any other air contaminant	100 tons per year

The calculation of potential to emit shall include fugitive emissions only if the facility falls into one or more of the following categories:

- i. Coal cleaning plants (with thermal dryers);
- ii. Kraft pulp mills;

Air Contaminant

В.

- iii. Portland cement plants;
- iv. Primary zinc smelters;
- v. Iron and steel mills;
- vi. Primary aluminum ore reduction plants;
- vii. Primary copper smelters;
- viii. Municipal incinerators capable of charging more than 250 tons of refuse per day;
- ix. Hydrofluoric, sulfuric, or nitric acid plants;
- x. Petroleum refineries;
- xi. Lime plants;
- xii. Phosphate rock processing plants;
- xiii. Coke oven batteries;
- xiv. Sulfur recovery plants;
- xv. Carbon black plants (furnace process);
- xvi. Primary lead smelters;
- xvii. Fuel conversion plant;
- xviii. Sintering plants;
- xix. Secondary metal production plants;
- xx. Chemical processing plants;
- xxi. Fossil-fuel boilers (or combination thereof) totaling more than 250 million BTUs per hour heat input;

	<ul> <li>xxiv. Glass fiber processing plants;</li> <li>xxv. Charcoal production plants;</li> <li>xxvi. Fossil-fuel fires steam electric plants or more than 250 mi input; or</li> <li>xxvii. All other stationary source categories regulated by a standard U.S.C. 7411, Standards for Performance for New Stationary facility in this category, fugitive emissions need only be in the potential to emit those air contaminants which EPA stationary source category.</li> </ul>	ard promulgat Sources. Honcluded when	ted under 42 owever, for a n calculating
		YES	<u>NO</u>
2.	Does the facility emit or have the potential to emit any of the air contaminants listed below in a an amount which equals or exceeds the threshold amount for that contaminant?		
3.	Is the facility an affected Title IV facility, as defined at N.J.A.C. 7:27-22.1?		
4.	Does the facility have any source operation in a source category designated by EPA? (EPA is authorized to designate source categories as subject to operating permit requirements pursuant to 40 CFR 70.3(a)(5).)		
5.	Does the facility have a solid waste incineration unit which combusts municipal waste and which has a combustion capacity greater than 250 tons of municipal waste per day?		
6.	Does the facility's owner or operator elect to obtain an operating permit in lieu of obtaining operating certificates from New Source Review?		
7.	Is the facility a non-major facility for which EPA completed rulemaking, requiring an operating permit for that category of non-major facilities pursuant to 40 CFR 70.3(b)1 or 2?		
WATER	R SUPPLY PROGRAM		

Petroleum storage and transfer units with a total storage capacity exceeding 300,000

xxiii.

barrels;

Taconite ore processing plants;

The Water Supply Program (http://www.state.nj.us/dep/watersupply/) is responsible for programs that assure adequate and safe supplies of drinking water. The Bureau of Safe Drinking Water includes the permitting of public water supply facilities, the water supply rehabilitation loan program and the establishment of safe drinking water standards. The Bureau of Water Allocation is responsible for the permitting of surface and ground water diversions in excess of 100,000 gallons per day and the well permit program. It also implements the critical area aquifer program in areas of the state in which aquifers have been overstressed.

Α.	Water Allocation	(609) 292-2957
7 <b>3</b> 0	vvatel milocation	(00) = 2 = 2001

B.

<u>VV a</u>	<u>ater Allocation</u> (609) 292-2957	YES	NO
1.	Permit to Divert Surface or Subsurface Waters (Non-agricultural)		
	Does your project/facility include the diversion of more than 100,000 gallons per day of water for more than 30 days in a 365-day period from surface or groundwaters for non-agricultural purposes?		
2.	A New Jersey licensed well driller of the proper class and permit to drill wells is required for the installation of any dewatering wells/well point system. A water allocation diversion permit may also be required depending on the amount and duration of water to be diverted on a temporary basis during the construction of the project.		
	Does your project/facility involve any temporary dewatering, as part of construction (e.g., foundation work or utility construction) of more than 100,000 gallons per day for more than 30 days in a 365-day period?		
We	<u>ell Drilling</u> (609) 984-6831		
1.	Well Drilling Permit		
	Does your project include the drilling, boring, coring or excavating of a well which will be used for any of the following purposes, including but not limited to: dewatering, domestic, fire, geothermal, heat pump, industrial, injection, irrigation, livestock, oil and gas exploration, water supply, public community water supply, public non-community water system, recharge, test, boring/probe hole, cathodic protection, gas vent, monitoring/observation, piezometer, or recovery? If "Yes," a l;icensed well driller must apply for a well permit.		
2.	A New Jersey licensed well driller of the proper class and permit to drill wells is required for modification to the physical construction of the well itself (i.e., well deepening or a new screen). While a permit is not required for the sealing of any abandoned well, a New Jersey licensed well driller who is certified to seal wells is the only individual who can perform such work.		
	Does your project include the modification, abandonment or sealing of any wells?		

<u>Safe</u>	<u>Drinking Water</u> (609) 292-5550		
		YES	NO
1.	Will your project receive its potable water supply by development of, or connection to, a Public Non-Community Water System i.e. system serving 25 or more people per day at least 60 days of the year? If "Yes," approval or certification is required from either a county or local health department.		
2.	Will your project receive its potable water supply by development or, or connection to, individual non-public water systems involving the development of 50 or more realty improvements? If "Yes," submit a plan to the Bureau of Safe Drinking Water for their approval.		
3.	Will your project receive its potable water supply by development of, or connection to, a Public Community Water System serving 25 or more year-round residents? If "Yes," check one or more of the applicable statements below:		
	Develop or modify a water supply (well or intake structure);		
	Develop or modify a pumping station;		
	Develop or modify a treatment plant;		
	Develop or modify a water distribution system consisting of m 50 service connections, or requiring a daily demand of more the		
	Develop or modify a water distribution system consisting connections, or requiring more than 1,500 linear feet of water		e service
	Use of any non-potable water supply (process or cooling water	r)	

#### VI. WATER QUALITY

C.

To protect the state's waters, the **Division of Water Quality** (http://www.state.nj.us/dep/dwq/) implements the New Jersey Pollutant Discharge Elimination System (NJPDES Program), administers financial assistance programs for wastewater treatment facilities, and administers the Treatment Works Approval, Capacity Assurance, and Sewer Ban Programs. The Municipal Finance and Construction Permitting Element is responsible for administration of a number of state and federally funded programs for the planning, design, and/or construction of wastewater, drinking water, and stormwater/nonpoint source management programs. The Watershed Permitting Element is responsible for the NJPDES Program which protects New Jersey's ground and surface water quality by assuring the proper treatment and discharge of wastewater (and its residuals) and stormwater from various types of facilities and activities. To accomplish this, permits are issued limiting the mass and/or concentration of pollutants which may be discharged into ground water, streams, rivers, and the ocean. The types of regulated facilities can range from very small users such as campgrounds, schools, and shopping centers to larger industrial and municipal wastewater dischargers.

For some projects requiring permits issued by the Watershed Permitting Element, a determination is required to assure that projects approved or authorized do not conflict with the Statewide and Areawide Water Quality Management (WQM) Plans and Regulations. Please refer to Watershed Management on Page 1.

#### A. Engineering/Administration and Management, North and South

<u>Treatment Works Approvals (TWAs)</u> are a type of construction permit wherein the division evaluates the proposed treatment plant's design and its ability to meet the effluent standards specified in the NJPDES permit. They are issued <u>after</u> a discharger has obtained a NJPDES permit. The TWA process involves assessing the design of new sewer lines and other wastewater conveyance facilities (force mains, pumping stations, etc.) as well as evaluating downstream conveyance and treatment capacity.

			YES	NO
1.		s your project involve the construction or upgrade of a icipal or industrial wastewater treatment facility?		
2.	wast stati	s your project involve the construction or upgrade of ewater conveyance facilities (sewer extensions, pumping ons, force mains, holding tanks, and various treatment plant ponents)?		
3.	Doe	s your project contain any of the following:		
	a.	Gravity or pumped connection serving more than two buildings, or the design flow exceeding 8,000 gallons per day;		
	b.	Construction of a sewer along an easement through more than two properties, a roadway or Public right-of-way;		
	c.	Operation of a municipal wastewater collection system (sanitary);		
	d.	Construction/operation of a wastewater holding tank or a flow equilization tank.		
4.	that	the project involve connection to a municipal sewer system is currently under a sewer connection ban? If "Yes," you apply for a sewer ban exemption)		

For additional information please contact the following offices (all numbers are within the 609 area code):

# B. <u>Point Source Permitting – Regions 1 and 2</u> (609) 633-3869 Region 1 (609) 292-4860 Region 2

The Bureaus of Point Source Permitting 1 and 2 regulate facilities discharging domestic and industrial wastewater directly into surface waters of the state as part of the NJPDES program. The regional structure of the two bureaus was established to facilitate watershed permitting. The regional boundaries are based on the state's 20 watershed management areas and 5 water regions. Region 1 includes the Upper Delaware and Passaic regions and the northern portion of the Atlantic Coastal region. Region 2 includes the Raritan and Lower Delaware regions and the southern portion of the Atlantic Coastal region. A map of the regions is included as Attachment F.

		YES	NO
1.	Does your facility discharge any of the following types of wastewater as a point source discharge into a surface waterbody (rivers, streams, lakes, ponds, or mosquito ditches [or storm sewers, wetlands areas, or any other conveyance which ultimately enters one of these entities])?		
	Sanitary/domestic wastewater;Non-contact cooling water;Contact cooling water;Process related wastewater;Wastewater from an industrial treatment system;Remediated groundwater (treated or untreated);Miscellaneous (filter backwash, boiler blowdown, floor drains, wash water or other); orStormwater commingled with any of the above discharges		
2.	Will your facility discharge municipal or industrial wastewater to surface water? If "Yes," new discharges or expansions of existing discharges require a Water Quality Management Plan Amendment.		
3.	Will your wastewater ultimately be discharged to the following receiving waters or their tributaries in Region 1?  Upper Delaware River (above the head of tide at Trenton, River Mile 133.4, the Trenton-Morrisville Toll Bridge)  Wallkill River Passaic River Hudson River Hackensack River Raritan River Navesink River		

Shrewsbury River Atlantic Ocean above the Mullica River

Atlantic Ocean from the Mullica River, south

	Atlantic Ocean above the Mullica River	YES	NO
4.	Will your wastewater ultimately be discharged to the following receiving waters or their tributaries in Region 2?		
	Lower Delaware River (below the head tide at Trenton, River Mile 133.4, Trenton-Morrisville Toll Bridge)		
	Delaware Bay		
	Upper New York Bay		
	Newark Bay		
	Arthur Kill		
	Kill Van Kull		
	North and South Branches of the Raritan River		
	Mainstream Raritan River		

#### C. NonPoint Pollution Control

The **Bureau of NonPoint Pollution Control** (BNPC) is responsible for protecting and preserving the state's groundwater resources through the issuance of NJPDES Discharge to Groundwater Permits and is responsible for permitting industrial facilities and municipalities under NJPDES for discharges of stormwater to waters of the state.

#### 1. Groundwater Section

(609) 292-0407

This Program does not issue NJPDES-DGW permits for remediation operations.

The following definitions should be used to assist in identifying discharge activities:

*Subsurface disposal system* is any contrivance which introduces wastewater directly to the subsurface environment, such as, but not limited to: septic systems, recharge beds, trench systems, seepage pits, and dry wells.

*Injection/recharge wells* are constructed such that they are deeper than they are wide, receive effluent via gravity flow or pumping, and include dry wells and seepage pits.

*Overland flow* is the introduction of wastewater to the ground surface, over which the wastewater travels and eventually percolates or evaporates.

*Industrial wastewater* is any wastewater or discharge which is not sanitary or domestic in nature, including non-contact or contact cooling water, process wastewater, discharges from floor drains, air conditioner condensate, etc.

1.	Will the project/facility have a sanitary wastewater design flow which discharges to groundwater in excess of 2,000 gallons per day?	
2.	Will the project/facility generate a discharge to groundwater of industrial wastewater in any quantity?	 

		<u>YES</u>	NO
3.	Will the project/facility involve the discharge to groundwater by any of the following activities or structures, or include as part of the design any of these activities or structures?		
Ple	ease indicate which:		
	Upland CDF (Dredge Spoils)Spray IrrigationSubsurface DisposLandfillInfiltration/PercolationSubsurface Impoundment	•	(UIC) Lagoon
	ease specify the source of wastewater for every structure identi- tions of garage to subsurface disposal system for industrial wastewa		e.g., floor
pro	ease specify lining materials for each lined structure identified posed project and give its permeability in cm/sec (e.g., 8-incaporation pond at 10 ⁻⁷ cm/sec):	_	•
to loc sub	ternate Design Septic Systems – The Realty Improvement Act emprevent pollution of the waters of the state by establishing standation, design, construction, installation, alteration and main osurface sewage disposal systems for facilities with a design flow day.	dards for the tenance of i	proposed ndividual
dis _l gal	es your project/facility include an individual subsurface sewage posal system design for a facility with a design flow less than 2,000 lons per day which does not strictly conform to the State's indards?		
sub aut unt sev app app	or More Realty Improvement Subdivision Certifications – No odivision approval shall be granted by any municipal or other thority in the State to cover 50 or more realty improvements til Department has certified that the proposed water supply and werage facilities for realty improvements comply with olicable State standards. The Department will review an olication only after the local board of health or planning board is stated that it will grant subdivision approval.		
Do	es your project involve 50 or more realty improvements?		

(To determine your SIC Code see the box "Industry Code" on your New Jersey Department of Labor Quarterly Contribution Report. If not yet assigned, see Attachment G in this document.)

<u>or</u>

- 2. Is your facility one of the following?
  - (a) Hazardous waste storage, treatment, or disposal facility (including those interim or permitted under Subtitle D of RCRA);
  - (b) Landfill, land application site, or open dump that receives or has received any industrial waste;
  - (c) Steam electric power generating station;
  - (d) Treatment works treating domestic sewage or sewage sludge for a population of greater than 100,000 people;
  - (e) Construction activity including clearing, grading, and excavation which disturbs 5 acres or more of land, or is part of a single plan of development or sale that is greater than 5 acres; or
  - (f) Subject to stormwater effluent limitation guidelines, new source performance standards, or toxic pollutant effluent standards

<u>or</u>

3. If you have one of the following SIC Codes, does stormwater come in contact, in any way, with material handling equipment or activities, raw materials, products, industrial machinery or waste products?

20	265	31(except 311)	38
21	267	323	39
22	27	34(except 3441)	4221
23	283	35	4222
2434	285	36	4225
25	30	37(except 373)	

If your facility meets any of the above conditions, then you must apply for a permit to discharge stormwater to the surface waters of the State unless:

(i) <u>All</u> your stormwater from the site is discharged to a sanitary or combined sewer (one that carries sanitary wastewater and stormwater to a municipal treatment plant)

<u>or</u>

(ii) The facility has an existing NJPDES permit for all of its discharges of stormwater to surface water;

<u>or</u>

(iii) All industrial activity has ceased and no "significant material" remains exposed to stormwater.

If exemptions to (i) or (iii) above are met, or a facility in Question 3 has no exposure of industrial materials or activities to stormwater, then a non-applicability form must be submitted.

Please fill in SIC Code_____

#### D. Pretreatment and Residuals

(609) 633-3823

		YES	NO
1.	Will the project involve the discharge of industrial/commercial wastewater, either alone or combined with sanitary sewage, to a publicly owned treatment works (POTW)? If "Yes," go to Question 2.		
2.	Is the POTW a delegated local agency (See Attachment H)? If "Yes," contact the POTW to determine if a permit is required. If "No," or "Unsure," contact Pretreatment and Residuals.		
3.	Will the project involve land application of sewage sludge?		
4.	Will the project involve processing of sewage sludge and/or the distribution of sludge derived products from processes such as composting, alkaline stabilization, heat drying, or pelletilization?		
5.	Will the project involve the use of phragmites reed beds for sewage sludge management?		

		<u>YES</u>	<u>NO</u>
6.	Will the project involve the storage and/or transfer of sewage sludge?		
7.	Will the project involve the distribution and land application of food processing residuals and/or food processing vegetative waste?		

#### VII. SOLID AND HAZARDOUS WASTES

The **Division of Solid and Hazardous Waste** (<a href="http://www.state.nj.us/dep/dshw/">http://www.state.nj.us/dep/dshw/</a>) is responsible for evaluating the design and operation of solid waste, hazardous waste and recycling facilities to ensure such activities are protective of our state's natural resources and the health and quality of life of its citizens. This is accomplished through the implementation of the permit and approval requirements adopted by the Department pursuant to the Solid Waste Management Act. The Division reviews and approves facility designs and operating plans, evaluates construction and monitoring reports and oversees closure and post-closure care activities at regulated facilities. Such facilities include solid waste (landfills, incinerators, and transfer stations) operations, hazardous waste (storage/treatment, incinerators, and land disposal) operations and recycling (bulky materials, vegetative materials, used oil and discarded consumer electronics) operations.

#### A. Solid Waste Management

(609) 984-5940

Will the project include the construction and/or operation of a facility for any of the following solid waste activities as defined at N.J.A.C. 7:26-1 et seq.? If "Yes," check the appropriate item(s) below.		
Landfilling	Recycling	
Resource Recovery	Materials Recovery	
Incineration	Medical waste treatment and/or disposal	
Heat recovery form waste	Transfer station	
Composting	Disruption of a closed or existing landfill

2.	Will the proposed activity involve the on-site treatment, storage, or disposal of hazardous waste as defined in 40 C.F.R. Parts 260-270?		
	If "Yes," briefly describe storage, treatment or disposal:		
	If "Yes," check appropriate item(s):		
	Hazardous wastes will not be accepted from off-site source(s) Hazardous wastes will be accepted from off-site inter-company so Hazardous wastes will be accepted from off-sire intra-company so Total on-site capacity to handle hazardous waste at any one time v the equivalent of 250,000 gallons	ource(s)	eater than

#### VIII. <u>RELEASE PREVENTION</u>

A.

The **Release Prevention Program** implements the New Jersey Community Right to Know and Superfund Amendments and Reauthorization Act (SARA) Title III programs which gather information on the use, storage and release of toxic chemicals to the environment. It is also responsible for implementation of the Toxic Catastrophe Prevention Act (TCPA).

J ./ /	/www.state.nj.us/dep/enforcement/relprev/tcpa/	(609) 633-7289	
		YES	NO
	Will any processes at this site handle, use, store, manufacture, or generate, at any time, any of the Extraordinarily Hazardouus Substances (EHSs) listed in Part A, B, or C of Table 1 of N.J.A.C. 7:31-6.3 which is included as Attachment I? If "Yes," proceed to Question 2.		
	Will any processes at this site handle, use, manufacture, or store at least the threshold quantity established for that EHS, or does it generate within one hour, at least the threshold quantity for that EHS in Part A, B, or C of Table 1 of N.J.A.C. 7:31-6.3?		
	If "Yes," then list below each process with each EHS and the quantity planned, in pounds. Include storage vessels such as all stored shipping containers and tank cars.		

#### B. Discharge Prevention (DPCC) Program

http://www.state.nj.us/dep/enforcement/relprev/dpcc/fsdpcc.htm (609)633-0610

Definitions: N.J.A.C. 7:1E-1.6

"Major Facility" means all facilities, located on one or more contiguous or adjacent properties, owned or operated by the same person, having total combined storage capacity of:

- (1) 20,000 gallons or more for hazardous substances other than petroleum or petroleum products;
- (2) 200,000 gallons or more for hazardous substances of all kinds; or
- (3) an appropriate equivalent measure as defined at N.J.A.C. 7:1E-1.6 for hazardous substances which are not commonly measured by volume.

A vessel shall be considered a major facility only when hazardous substances are transferred between vessels.

"Transmission Pipeline" means new and existing pipe and any equipment, facility, rights-of-way, or building used or intended for use in the transportation of a hazardous substance by a pipeline and having a throughput capacity of 140 gallons per minute (530 liters per minute) or greater. This term does not include the transportation of a hazardous substance through onshore production or flow lines, refining, or manufacturing facility, or storage terminals or implant piping systems associated with those facilities. Any pipe used or intended for use in the transportation of a hazardous substance which is not a transmission pipeline will be considered an in-facility pipe. A transmission pipeline is not a major facility.

		<b>YES</b>	_1
	Is your facility now, or will the construction project cause your facility to be, designated as a "Major Facility" or "Transmission Pipeline"? If "Yes," then you need to submit a plan for approval.

#### XI. <u>SITE REMEDIATION</u> Publicly Funded (609) 984-3081 Responsible Party (609)984-1688

The **Site Remediation Program** (<a href="http://www.state.nj.us/dep/srp/index.htm">http://www.state.nj.us/dep/srp/index.htm</a>) protects public health and the environment by implementing remedial activities utilizing public funds; oversees the cleanup of sites being remediated by both responsible and other parties; and acts as lead agency for emergency and spill activities related to hazardous substances and wastes.

			YES	NO
	1.	Is this a site remediation project?		
	2.	If this is a site remediation project, please provide the following info	rmation:	
		a. Case Manager's Name		
		b. Bureau		
		c. Telephone Number		
		d. Case Number		
	3.	Will a NJPDES/DGW permit be necessary for remedial activities?		
	4.	Is this project a potential Brownfields Redevelopment project as defined in the Brownfield and Contaminated Site Remediation Act N.J.S.A. 58:10B-12? If "Yes," please call (609) 292-1250.		
Α.	<u>Unc</u>	derground Storage Tanks (609) 292-8761		
	1.	Does the project/facility include any existing or proposed underground storage tank (UST) systems which contain or contained (a) any hazardous substances or (b) hazardous wastes of any quantity which are regulated pursuant to N.J.S.A. 58:10A-21 et seq.?		
	2.	If a regulated UST exists or is proposed, do you have an UST registration number? If "No," apply for a registration number as per N.J.A.C. 7:14B-2.		
	3.	Do you intend to remove or abandon in place any existing UST system? If "Yes," apply for a Closure Plan Approval as per N.J.A.C. 7:14B-9.		

As of December 22, 1993, owners and operators of all federally regulated UST systems must have begun leak detection monitoring of their UST systems. All existing, regulated UST systems must have approved upgrades by December 22, 1998, which include corrosion protection, spill prevention, and overfill protection. Any federally regulated UST systems, installed after December 21, 1988, must meet all of the above stated requirements before being put into service.

All existing UST systems containing hazardous substances other than petroleum products and waste oil must be secondarily contained by December 22, 1998. All new systems (those installed after December 21, 1998) containing hazardous substances other than petroleum products and waste oil must be secondarily contained upon installation.

		YES	NO
	Does the existing or proposed regulated UST system meet the secondary containment upgrade and monitoring requirements as outlined above? If "No," apply for either a Closure Plan Approval or an Upgrade Pemit.		
B.	Office of Dredging and Sediment Technology (609) 292-12	250

## ATTACHMENT I

## TCPA EXTRAORDINARILY HAZARDOUS SUBSTANCE(EHS) LIST

The EHS list and related provisions are found at N.J.A.C. 7:31-6.

The substances listed in Table I. Parts A. B and C. constitute the Department's extraordinarily hazardous substance list. For substances listed with both New Jersey and EPA threshold quantities in Part A. the lower threshold applies. For substances with no New Jersey threshold quantity, the EPA threshold applies. The threshold quantity is that quantity in a process at any time or that quantity generated by a process within one hour.

### TABLE I, PART A

Name of Extraordinarily Hazardous Substance (EHS)	CAS#	New Jersey Threshold Quantity (Pounds)	EPA Threshold Quantity (Pounds)
10	GROUP I		
Hydrogen chloride (HC1)	7647-01-0	2,000	5,000

Table I, Part B

Additional toxic substance EHSs obtained from EPA's 40 CFR 68.130 - LIST OF REGULATED TOXIC SUBSTANCES AND THRESHOLD QUANTITIES FOR ACCIDENTAL RELEASE PREVENTION. When the chemical name includes a concentration value, the net weight of the pure chemical must equal or exceed the threshold value.

For those mixtures not specified above which contain EHS, the registration quantity shall be calculated using the weight percent of EHS contained in the mixture. When the weight of the total mixture times the weight percent is equal to or greater than the registration quantity for that EHS, the owner or operator must register.

Chemical Name	CAS#	Threshold quantity (lbs.)
Acrylyl chloride [2-Propenoyi chloride]	814-68-6	5,000
Ailyl alcohol [2-Propen-1-01]	107-18-6	15,000

Ethyl ether [Ethane, 1,1'-oxybis-]	60-29-7	10,000
Ethyl nitrite [Nitrous acid, ethyl ester]	109-95-5	10,000
Hydrogen	1333-74-0	10,000
Isopentane [Butane, 2-methyl-]	78-78-4	10,000
Isoprene [1,3-Butadiene, 2-methyl-]	78-79-5	10,000
Isopropyl chloride [Propane, 2-chloro-]	75-29-6	10,000
Methane	74-82-8	10,000
3-Methyl-1-butene	563-45-1	10,000
2-Methyl-1-butene	563-46-2	10,000
Methyl ether [Methane, oxybis-]	115-10-6	10,000
Methyl formate [Formic acid, methyl ester]	107-31-3	10,000
1,3-Pentadiene	504-60-9	10,000
Pentane	109-66-0	10,000
1-Pentene	109-67-1	10,000
2-Pentene, (E)-	646-04-3	10,000
2-Pentene, (Z)-	627-20-3	10,000
Propadiene [1,2-Propadiene]	463-49-0	000,01
Propyne [1-Propyne]	74-99-7	10,000
Silone	7803-62-5	10,000
Tetrafluoroethylene [Ethene, tetrafluoro-]	116-14-3	10,000
Tetramethylsilane [Silane, tetramethyl-]	75-76-3	10,000
Vinyl acetylene [1-Buten-3-yne]	689-97-4	10,000
Vinyl chloride [Ethene, chloro-]	75-01-4-	10.000
Vinyl ethyl ether [Ethene, ethoxy-]	109-92-2	10.000
Vinyl fluoride [Ethene, fluoro-]	75-02-5	10,000
Vinylidene chloride [Ethene,1,11-dichloro-]	75-35-4	10,000
Vinylidene fluoride [Ethene, 1,1-difluoro-]	75-38-7	10.000
Vinyi methyl ether [Ethene, methoxy-]	107-25-5	10,000

^{*}EHS listed in both Part A and Part B but at different concentrations.

## **DEPARTMENT OF AGRICULTURE**

## SOIL EROSION AND SEDIMENT CONTROL

The Soil Erosion and Sediment Control Act requires that most land disturbance activities greater than 5,000 square feet in size receive soil erosion and sediment control plan certification by the local soil conservation district. To determine if plan certification is required, please answer the following:

1.	Will land disturbance associated with construction of your project exceed 5,000 square feet of the surface area of land?	<u>1E5</u>	<u>NO</u> 	
2.	Does your project involve the construction of only <b>ONE</b> single-family dwelling?			
	If YES (to #2, above) is your project part of a proposed or existing bedivision,			
	site plan, zoning variance, planned development or construction permit application involving <b>TWO</b> or more single-family dwelling units?			
То	obtain additional information, contact your local Soil Conservation District	office li	sted on page 39	or:
	State Soil Conservation Committee			
	Department of Agriculture P.O. Box 330			
	Trenton, New Jersey 08625 Phone: 609-292-5540			
<u>ST</u>	ORMWATER DISCHARGE AUTHORIZATION			
mi	ormwater discharge authorization is required for construction activities 5 acroning activities of any size. Authorization is issued by the local soil conserval erosion and sediment control plan certification. For information contact the	tion dist	rict in conjunct	ion with
	ted on page 39 or the State Soil Conservation Committee			
4.	Is your project eligible for the construction general permit/Stormwater District Authorization? (See "Self-Screening Form" on page 38.)

## **DEPARTMENT OF COMMUNITY AFFAIRS**

## PLAN REVIEW AND CODE CONFORMANCE

1.a. Does this project involve the construction, alteration or change of use of a State-owned building or structure?	<u>YES</u>	<u>NO</u>
1.b. Does this project involve the construction, alteration or change of use of a healthcare facility with a valid certificate of need?		
1.c. Does this project involve the construction, alteration or change of use of a public school?		
2. Does this project involve construction of new homes?		
3. Does project consist of housing units - whether fee-simple, condominium or co-operative – which include an interest in commonly-held elements of any kind?		
4. Is the construction you propose:		
a. An electrical (including nuclear) generating station or substation?		
b. An incineration plant?		
c. A solid waste disposal plant?		
d. A casino-hotel?		
e. A mausoleum?		
5. Have you contacted the construction official of the municipality in which your project is located to determine if that agency will perform the plan review?		
6. Will the structure proposed, as part of your project, require a:		
Class I Project Review		
Class II Project Review		
Class III Project Review		

**NOTE:** Please see summary of structure classifications on the following page.

## **CLASS III STRUCTURES**

<b>Use Group</b>	less than Sq.	<b>Stories</b>	Height (ft)	Notes
	Ft.			
В	7200	2	30	(Use Group <b>B</b> : "Business")
M	4800	1	20	(Use Group M: "Mercantile")
S-1	4200	1	20	(Use Group <b>S-1</b> : "Storage, Moderate
				hazarď')
S-2	7200	2	30	(Use Group <b>S-2</b> : "Storage, Low hazard")
R-3				(Use Group <b>R-3</b> : "Residential, 1 and 2
				family"); including accessory private
				garages, radio and television antennae, and
				swimming pools.

## **CLASS II STRUCTURES**

<b>Use Group</b>	less than Sq. Ft.	Stories	Height (ft)	Notes
A-1	4800	1	20	(Use Group <b>A-1</b> : "Assembly, theaters")
A-2	2400	1	20	(Use Group <b>A-2</b> : "Assembly, nightclubs")
A-3	8400	2	30	(Use Group <b>A-3</b> : "Assembly, lecture halls, restaurants")
A-4	14000	2	30	(Use Group <b>A-4</b> : "Churches")
A-5	5000	1	30	(Use Group <b>A-5</b> : "Grandstands, bleachers, stadiums")
В	34200	6	75	(Use Group <b>B</b> : "Business")
E	14400	2	30	(Use Group <b>E</b> : "Educational")
F-1	22800	6	75	(Use Group <b>F-1</b> : "Factory, moderate hazard")
F-2	34200	6	75	(Use Group <b>F-2</b> : "Factory, low hazard")
Н				(Use Group <b>H</b> : "High hazard"); paint spray booths, sect. 419.2.1 only
I-1	8400	3	40	(Use Group <b>I-1</b> : "Institutional, residential")
I-2	7200	1	20	(Use Group <b>I-2</b> : "Institutional, incapacitated")
I-3	6000	1	20	(Use Group <b>I-3</b> : "Institutional, restrained")
M	22800	6	75	(Use Group M: "Mercantile")
R-1	9600	3	40	(Use Group <b>R-1</b> : "Residential, hotels")
R-2	9600	3	40	(Use Group <b>R-2</b> : "Residential, multifamily")
S-1	19950	5	65	(Use Group <b>S-1</b> : "Storage, moderate hazard")
S-2	34200	6	75	(Use Group <b>S-2</b> : "Storage, low hazard")
U				(Use Group U: "Utility and miscellaneous"); as permitted by the building subcode.

### **CLASS I STRUCTURES**

Structures NOT listed above; for example, use Group H (High Hazard) not referenced above.

Note: Normally, the class of the project is determined by the municipal construction office or by DCA, assuming sufficient information is given to make this determination. (Refer to N.J.A.C. 5:23-4.3A for specific classification restrictions.) If the classification of the construction office is lower than the proposed project, the information must be submitted to DCA for further determination as to plan review jurisdiction.

		<b>YES</b>	NO
7.	Are any premanufactured structures proposed?		

Note: Most premanufactured structure plans are reviewed by the in plant inspection agency. The only plans reviewed by DCA or the local construction office are "site installation plans" which indicate how the premanufactured structure is to be installed at the construction site.

## **DEPARTMENT OF HEALTH**

		<u>YES</u>	<u>NO</u>
1. Will your	project be used to provide a new healthcare facility?		
2. Does you	r project expand a presently-provided healthcare service?		
	ne terms "Healthcare Facility" and "Healthcare Service" encompass a muto whether your project falls into either of these categories, check with		

Certificate of Need Program
Department of Health & Senior Services
Health-Agriculture Building
P.O. Box 360
Trenton NJ 08625-0360
609-292-6552

To obtain more information, contact:

## **DEPARTMENT OF TRANSPORTATION**

		<b>YES</b>	<u>NO</u>
1.	Does the proposed work affect any portion of a State Highway Right of Way?		
2.	Does the proposed construction work cross over, go under or lie within State highway property? For example, transmission lines, underground pipe, sewer connection, manholes, etc.		
3.	Will there be any attachments to structures or appurtenances located on State highway property? For example, bridges, utility poles, etc.		
4.	Will you be:		
•	constructing one or more driveways or streets intersecting a State highway?		
•	changing or modifying any existing driveway or street intersecting a State highway?		
•	constructing sidewalk, curb, drainage, or any other related work within the limits of a State highway right-of-way?		
•	expanding the facilities on a lot, having access to a State highway, to the extent that a significant increase in traffic results?		
•	changing the use of a lot, having access to a State highway, to the extent that a significant increase in traffic results?		
•	subdividing a lot having access to a State highway (any resultant lot which has direct State highway access needs a permit)?		
•	consolidating a lot having access to a State highway?		
•	initiating any activity which may interfere with the free and safe movement of normal highway traffic on any paved portion of a State highway?		
5. rig	Will it be necessary to temporarily locate equipment on State highway tht-of-way during the proposed construction activity?		

NOTE: **Significant increase in traffic** means an increase of 100 movements during the peak hour and 10 percent of the previously anticipated daily movements.

#### **Applicant Statement**

I understand that receipt of permit, certificate, license, etc., information in response to filing this "One-Stop" Information Application shall, in no way, be construed to prevent various departments from requiring additional permits, certificates, license, etc., should evaluation of any formal application for this project indicate these are required pursuant to existing or future laws and/or regulations.

The information given on this application is complete and accurate to the best of my knowledge and belief.

(Date)	(Applicant's Signature)

Please return  $\underline{10}$  sets of this completed application, clear copies of the appropriate USGS map(s) and site plans, if available, to:

New Jersey Commerce & Economic Growth Commission
Office of the Business Advocate
Mary Roebling Building
P.O. Box 820
Trenton, NJ 08625-0820

Attention: One-Stop Permit Identification Program

NOTE: USGS maps may be purchased for \$5.00 from the Department of Environmental Protection, 428 E. State Street, P.O. Box 438, Trenton NJ 08625-0438.
